## Joint Board Update

Public Works Director David Buck gave this update. The Joint Board held a public hearing for the State Street Project. It was very well attended and the Board received a lot of comments about the project. Those comments were taken under advisement by the Joint Board. There is another meeting scheduled for next Monday, February 22, 2016 at noon to consider the final PPA and final recommendation for selecting Plenary Road State Street for the project. President Oates requested that Mr. Buck ask a member of the Joint Board to be present at the Redevelopment Commission meetings to give an update regarding the project in the future. Commissioner Campbell asked if there were any changes that have been made to the project. Mr. Buck explained that some smaller changes have been made, but nothing that is as major as removing a round-about. Commissioner Campbell specifically asked about the parking near the bank. Mr. Buck explained that they are looking at keeping some parking, but it still would not be connected at the intersection like it is now. Commissioner Campbell stated that the parking in the Chauncey Hill area is bad in general. President Oates confirmed that Monday's Joint Board meeting is to approve Plenary as the contractor. From that point on there will be a movement to approve the actual contract with Plenary. Mr. Brooks stated that commercial close is March 8. Financial Close is in late April or early May.

The Community Development Corporation will then lease that property from the Joint Board and the Redevelopment Commission is sub-leasing that property from the Community Development Corporation. At the end of the project, all of the land will be transferred back to the Redevelopment Commission. Mr. Brooks stated that the Bond that is paying for this project is through the Community Development Corporation so the Community Development Corporation has to lease this property.
